GAS Energy Solutions works directly with our Agents and Clients to provide the industry leading risk management insurance solutions. Our team of Underwriters, Loss Prevention Specialists, Claims Administrators, and Customer Service Representatives focus on building strong business relationships and providing the highest quality program services tailored to the Oil & Gas Industry.

**LOSS CONTROL**

# SAFETY FIRST

RISK MANAGEMENT SERVICES ARE DESIGNED TO HELP IMPROVE YOUR WORKPLACE SAFETY. A SAFE WORKPLACE IS MORE PRODUCTIVE, HAS LESS TURNOVER, AND IS MORE PROFITABLE.

Our loss control staff provides an array of services to assist companies with on-the-job safety related issues. We help our policyholders evaluate the effectiveness of their safety programs and can provide various safety training courses. These services are designed to minimize your risk and improve your overall safety climate. Our services are available to our policyholders at no additional cost. We strive to provide personalized services for your organization through the on-site evaluations of your health and safety practices.

## OUR RISK MANAGEMENT GOAL

To share our experience and best practices around safety and loss prevention which will result in a safer workplace with reduced risk and fewer claims.

## LEVEL UP

Our qualified safety trainers are equipped to provide various training courses, as well as developing customized training programs.
